Invitation

Muster is a term primarily used in Australia to refer to the roundup of livestock. However, it can also refer to the calling forth of volunteers, and to the persons assembled for a gathering especially of troops for roll call, inspection, review and service. Flinders University and Northern Ontario School of Medicine call you to muster at this conference.

Following the success of the 2008 ICEMEN International Conference: Community Engaged Medical Education in the North) in Northern Ontario Canada, the Conference Convening Committee invites you to attend this second conference on community-engaged medical education. We are proud to present an exciting programme that will feature internationally recognised leaders in community engagement, longitudinal integrated curricula, and socially accountable medical education.

We look forward to welcoming you to an exciting and enjoyable meeting.

Conference Executive

Lucie Walters and Paul Worley
Flinders University

Deans Sarah Strasser and Roger Strasser
Northern Ontario School of Medicine
